What is a twitter?

As quoted from twitter.com, "Twitter is an online service, for friends, family, and co-workers to communicate and stay connected through the exchange of quick, frequent answers to one simple question: What are you doing?" With one text message on twitter you can say whatever you want to all friends 'following' you. It works as a hub for you to send 1 message to all.

TwitterDash: Is a race to find hidden cash or prizes. "Twitters" reveal the clue and its up to you to find it first.

When are the Dashes.
